Bentel

Power supply 24V 2.7A

- Switching Power Supply / Battery Charger.
- Input voltage: 230V.
- Output voltage: 27.6V.
- Output current: 2.7A.
- Dimensions (WxHxD): 166x38x98mm.
- The power supply does not include a thermal probe.
- This accessory, included in the KST kit, makes it possible to automatically vary the > output voltage depending on the battery temperature in order to > improve their charging procedure.
